CAREER OBJECTIVE

Motivated B.Tech CSE (AI & DS) student with hands-on experience building an end-to-end AI system and a published research-based book. Skilled in Python, Machine Learning, Java/C++, and data analysis. Seeking an internship opportunity to apply Data Analyst and AI/DS knowledge to solve real-world problems while contributing to and learning from a professional engineering team.

EDUCATION

Marwadi University, Rajkot, Gujarat, India

Bachelor of Technology (B.Tech) — Computer Science & Engineering (AI & DS)

TECHNICAL SKILLS

- Programming Languages: Python, Java, C++
- AI / Machine Learning: Model development, emotion/state detection systems, adaptive AI applications
- Data Analysis: SQL, Microsoft Excel, PowerBI
- Operating Systems: Linux (Administration & Command Line)
- Tools & Concepts: Networking fundamentals (Cisco), Version Control, Problem Solving

PROJECTS

AI-Powered Emotional State Detection and Adaptive Driving Experience System

- Developed an AI-based system to detect a driver's emotional state in real time and adapt the driving experience accordingly, aiming to improve road safety and comfort.
- Designed and implemented the underlying detection and adaptation logic, combining AI/ML techniques with practical driving-experience considerations.

Authored and published the project as a book on Amazon: https://amzn.in/d/0fm6aY8z

CERTIFICATIONS

- Cisco Certification — Networking Fundamentals
- Linux Training & Certification
- Code Alpha — Internship Completion Certificate

ADDITIONAL INFORMATION

- Actively engage with and share AI/DS and technology-related content and updates on LinkedIn.
- Strong interest in applying AI to real-world human-centered problems and Data Analyst.
